Serial No.:	10/579.111 - Case No.: 21561P
Filed:	May 11, 2006
For:	OPTIMIZED EXPRESSION OF HPV 58 L1 IN YEAST

Art Unit: 1648

Examiner: Salimi, A.R.

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

**PETITION TO WITHDRAW HOLDING OF ABANDONMENT
BASED ON FAILURE TO RECEIVE OFFICE ACTION**

Sir:

1. This is a petition to withdraw a holding of abandonment based on the failure to receive an Office Action pursuant to M.P.E.P. §711.03(c) and 37 C.F.R. § 1.181.
2. The Office Action that was never received is a Restriction Requirement, having a mail date of June 21, 2007, with a 1-month period for reply set to expire on July 21, 2007. Upon learning of the abandonment, Applicants subsequently downloaded the Office Action from the PAIR system and submit herewith a response thereto.
3. The Notice of Abandonment for U.S. Serial No. 10/579,111 was mailed by the Office on March 17, 2008 and received by Applicants on March 19, 2008.
4. Attached to this petition is a Declaration of Lori A. Schepisi and accompanying exhibits. Ms. Schepisi is employed in Applicants' Legal Administration Department. Her job responsibilities include docketing U.S. patent correspondence. Ms. Schepisi

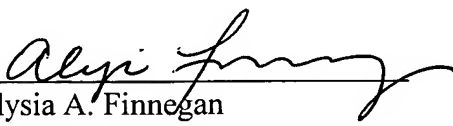

received the Notice of Abandonment from the Office, which was mailed on March 17, 2008 and stamped the document as received on March 19, 2008. Ms. Schepisi reviewed Applicants' docket records and determined that the Office Action that was mailed by the Office on June 21, 2007, with a due date for response set at July 21, 2007, was never received. As a result, Ms. Schepisi entered a notation in the docket record for U.S. Application 10/579,111 that the Notice of Abandonment was received in error and that the attorney of record never received the Restriction Requirement referred to therein. A copy of the docket record for application 10/579,111 showing this notation is attached to Ms. Schepisi's declaration as "Exhibit A". The docket record further shows that prior to receiving the Notice of Abandonment mailed by the Office on March 17, 2008, the last docket entry for this application was the publication of the application on February 15, 2007.

5. It is Applicants practice for a Docket Specialist to remind all Merck Patent Department attorneys when there is a prosecution due date for any U.S. patent or patent applications for which they are responsible. In order to do so, the Docket Specialist prints out reports that are created electronically by the docket system. These reports list all U.S. docket items/due dates related to US prosecution for which all Merck Patent Department attorneys are responsible that have not been completed. A print out of the docket record showing all responses that were due to the U.S.P.T.O. by the Applicants, and were not complete, for a period of one week prior to and one week subsequent to July 21, 2007 is attached to Ms. Schepisi's Declaration as "Exhibit B."
6. There is no record in these docket reminders indicating that a reply to an Office Action/Restriction Requirement was due for the above-referenced application on July 21, 2007. Had Applicants received the Office Action/Restriction Requirement that was mailed on June 21, 2007, an entry would have been created by the docket system and printed on the reminder lists attached as Exhibit B.
7. Also attached to this Petition is a Declaration of Alysia A. Finnegan, who is the Attorney for Applicants with responsibilities for the above-referenced application. Dr. Finnegan reviewed the file and docket records for the referenced patent

application. Based on her review, Dr. Finnegan attests that the original Office Action dated June 21, 2007 was not received by Applicants.

8. If the Office denies this Petition to withdraw a holding of abandonment based on the failure to receive an Office Action pursuant to M.P.E.P. § 711.03(c) and 37 C.F.R. § 1.181, Applicants request that the Office alternatively treat this communication as a petition for revival of an application for patent abandoned unintentionally under 37 C.F.R. § 1.137(b). In such case, any fees required in connection with this Petition may be charged to Merck Deposit Account No. 13-2755. A reply to the Office Action dated June 21, 2007 is submitted herewith. The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 C.F.R. 1.137(b) was unintentional.
9. The undersigned believes that no fee is required. However, if the Office deems otherwise, any fees required in connection with this petition may be taken from Merck Deposit Account No. 13-2755. The examiner is invited to contact the undersigned attorney at the telephone number provided below if such would advance the prosecution of the case.

Respectfully submitted,

By 
Alysia A. Finnegan

DECLARATION OF LORI A. SCHEPISI

Sir:

I, Lori A. Schepisi, hereby declare the following:

1. I have been employed by Merck & Co., Inc. beginning in 1989 and currently hold the title of Patent Docket Specialist in the Legal Administration Department.
2. My job responsibilities at Merck include docketing communications received from the United States Patent and Trademark Office, including Office actions. Such communications are stamped with the date on the day that they are received. Relevant information related to the communication, such as the date received and the due date for a response are entered into an intellectual property management database system.
3. On March 19, 2008, I received a copy of The Notice of Abandonment for U.S. Serial No. 10/579,111, which was mailed by the Office on March 17, 2008. I stamped the document as received on March 19, 2008. The Notice of Abandonment states that the

application was abandoned in view of Applicant's failure to timely file a proper reply to the office letter mailed on June 21, 2007.

4. Upon receiving the Notice of Abandonment, I reviewed the docket record for U.S. Serial No. 10/579,111 and determined that the Office action that was mailed by the Office on June 21, 2007, with a due date for response set at July 21, 2007, was never received. As a result, I entered a notation in the docketing system that the Notice of Abandonment was received in error and that the Restriction Requirement that the Office mailed on June 21, 2007 was never received. I then entered an "Action due" date of April 18, 2008 into the docket system for the attorney responsible for the application to respond to the Notice of Abandonment. On April 18, 2008, the "Action Due" date in the docket system was amended from 4/18/08 to 5/17/08.

5. Attached hereto as "Exhibit A" is the docket record for application 10/579,111. The docket record shows the following:

- a) The notation referred to above that that the Notice of Abandonment for the application was received in error and that the attorney responsible for the application never received the Restriction Requirement to respond to;
- b) The notation referred to above that the attorney responsible for the application had an "Action Due" date of 4/18/08 for responding to the Notice of Abandonment, which was amended to 5/17/08 on April 18, 2008; and
- c) Other than the "Action Due" date of 5/17/08, the last two docket entries for this application were: (1) the Notice of Abandonment mailed by the Office on March 17, 2008 and received by Applicants on March 19, 2008 and (2) the publication of the application on February 15, 2007.

6. If the Restriction Requirement had been received, either myself or another docket specialist would have entered the date that the document was received by the U.S.P.T.O. into the docket system and added an "Action Due" date of July 21, 2007 into the docket record for this application. There is no such record in the docket system that the Restriction Requirement was received.

7. It is Applicants practice for a Docket Specialist to remind all Merck Patent Department attorneys when there is a prosecution due date for any U.S. patent or patent

application for which they are responsible. In order to do so, the Docket Specialist prints out reports that are created electronically by the docket system. These reports list all U.S. docket items/due dates related to US prosecution for which all Merck Patent Department attorneys are responsible that have not been completed. It is Applicants practice for a Docket Specialist to then call the attorneys who have any US prosecution due to remind them to timely respond. A print out of the docket record showing all responses that were due to the U.S.P.T.O. by the Applicants, and were not complete, for a period of one week prior to and one week subsequent to July 21, 2007 is attached to hereto as "Exhibit B." There is no record in these docket reminders indicating that a reply to an Office Action/Restriction Requirement was due for the above-referenced application on July 21, 2007.

8. Had Applicants received the Office Action/Restriction Requirement that was mailed on June 21, 2007, an entry would have been created by the docket system and printed by a docket specialist on the reminder lists attached as Exhibit B.

9. I hereby declare that all statements made herein of my own knowledge are true and that all statements made of information and belief are believed to be true. I further declare that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Respectfully submitted,

By Lori A. Schepisi

DECLARATION OF ALYSIA A. FINNEGAN

Sir:

I, Alysia A. Finnegan, hereby declare the following:

1. I have been employed by Merck & Co., Inc. beginning in 2001 and currently hold the title of Senior Attorney in the Patent Department.
2. I am a registered attorney with the United States Patent & Trademark Office.
3. I have primary responsibility for prosecuting U.S. Application No. 10/579,111 for the above named applicants in the U.S. Patent Office.
4. On March 20, 2008, I received a Notice of Abandonment for the above-referenced application, which states that the application was abandoned for failure to respond to an Office letter mailed on June 21, 2007. Thereafter, I reviewed and searched the file jacket for the referenced application and could not locate the original office action mailed by the Office on June 21, 2007. I have also reviewed and searched the docket record for this application ("Exhibit

A"). The docket record indicates that the original Office action dated June 21, 2007 was never received. I downloaded a copy of the Office letter from the PAIR system on March 20, 2008.

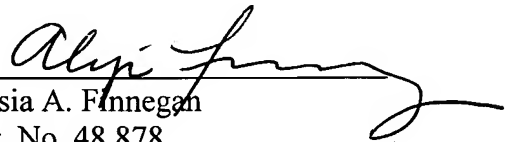

5. I also personally interviewed Lori A. Schepisi and reviewed her declaration and accompanying exhibits.

6. Based on my inquiry and review and search of the file jacket and docket records, I attest to the best of my knowledge and belief that the original Office action dated June 21, 2007 was not received by applicants.

7. I hereby declare that all statements made herein of my own knowledge are true and that all statements made of information and belief are believed to be true. I further declare that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

RESPONSE TO RESTRICTION REQUIREMENT ACCOMPANYING
A PETITION TO WITHDRAW HOLDING OF ABANDONMENT
BASED ON FAILURE TO RECEIVE OFFICE ACTION

Sir:

This communication accompanies a Petition to Withdraw Holding of Abandonment Based on Failure to Receive Office Action pursuant to M.P.E.P. §711.03(c) and 37 C.F.R. § 1.181. Upon withdrawal of the holding of abandonment, Applicants request entry of this response, which replies to the Restriction Requirement mailed by the Office on June 21, 2007. Reconsideration and allowance of the above-identified patent application are respectfully requested.

Applicants believe that no fee is due in connection with this submission. However, in the event any extension of time is required, please treat this paper as a request under 37 C.F.R. §1.136(a) to extend the time as required, and charge Deposit Account No. 13-2755 the appropriate fee as a large entity. Please credit any overpayment or charge any fee deficiency, related to this or any accompanying submission, to Deposit Account No. 13-2755.

The Office Action states that the application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1:

- Group I, claims 1, 2, 7-8 → drawn to nucleic acid molecule comprising a nucleotide sequence of HPV 58 L1.
- Group II, claims 3-6, 9 → drawn to host cells
- Group III, claims 10-18 → drawn to virus-like particles of HPV-58, vaccines, method of making and using.
- Group IV, claims 20-25 → drawn to multivalent vaccines.
- Group V, claims 29 → drawn to isolated polypeptide.

The Office Action further states that Applicant is required to elect a single one of these inventions to which the claims must be restricted.

By way of this response, Applicants respectfully traverse the Lack of Unity of Invention/Restriction Requirement set forth above. However, in order to be fully responsive, Applicants provisionally elect Group I, claims 1, 2, 7-8, without prejudice to the prosecution of the non-elected claims in related patent applications.

Under PCT Rule 13.1, inventions that are so linked as to form a single general inventive concept may be examined and prosecuted in a single case. As stated in the Office Action, if a group of claims share the same or corresponding special technical feature, one that identifies a contribution over the prior art, then those claims are so linked as to form a single general inventive concept. In the present case, Applicants traverse the restriction of Groups I and II because these groups of claims clearly share the same or special technical feature which contributes over the prior art.

Group I contains claims to nucleic acid molecules comprising a sequence of nucleotides encoding HPV58 L1, said sequence codon-optimized for high expression in a yeast cell, and vectors comprising said nucleic acid molecule. Group II contains claims to host cells comprising said vectors. Each of the claims in the referenced groups describes a codon-optimized nucleic acid molecule comprising a sequence of nucleotides encoding HPV58 L1, which is the special feature that is shared by the two groups. Prior to the present invention, nucleic acid molecules comprising the claimed elements were not known in the art. Moreover, because the same novel special technical feature is present in each of these claims, it would require no additional USPTO resources or present a burden on the USPTO to examine Group I and II claims in a single application. Thus, all claims in groups I and II share a special technical feature that provides a contribution over the prior art. Accordingly Applicants respectfully

submit that it is not proper to restrict the claims of Groups I and II into separate applications based on PCT Rule 13.2.

Applicants also note that according to PCT Rule 13.4, it is permissible to include in the same application a reasonable number of dependent claims, claiming specific forms of an invention claimed in an independent claim, even where the features of any dependent claim could be considered as constituting in themselves an invention. In the present case, claims 2-9 (Groups 1 and 2), which all depend on claim 1, present specific forms of the invention described in claim 1. As such, Applicants submit that it is not proper to restrict the claims in Groups I and II, pursuant to PCT Rule 13.2, as discussed in the previous paragraph, and pursuant to Rule 13.4, as discussed above.

Applicants, therefore, respectfully submit that Groups I and II (claims 1-9) should properly be examined in a single group in accordance with PCT Rules 13.2 and 13.4. As such, reconsideration and withdrawal of the requirement for restriction and/or regrouping of the claims, e.g., by combining Group I- and Group II (claims 1-9) is respectfully requested.

Applicants assert all claims are in condition for allowance and a favorable action on the merits is earnestly solicited.

If the Examiner believes that a telephone conference would be of value, he is requested to call the undersigned attorney at the number listed below.

Respectfully submitted,

By
